

## ▶ VALUE\_1000 PNEUMATIC POUCH PACKING MACHINE

FOR PACKING free flowing items such as Powders, Pulses, Sugar, Namkeen, Masalas, Rice, Dals, Wheat etc.,

### KEY FEATURES:

- ▶ Provision to pack 5 grams to 1 Kg in the same machine.
- ▶ Pneumatically Operated\_Compressor Required
- ▶ PLC Control with Multi Drive Operation for precision
- ▶ Low Power Consumption
- ▶ Quick Photo Cell setting & sensing operation

### OPTIONAL FEATURES:

- ▶ Mechanically operated variant: Compressor not required
- ▶ Nitrogen Gas flushing unit
- ▶ Electronic Batch coding device for printing Batch No. etc.

### TECHNICAL DETAILS:

- ▶ Type : Pneumatic Cup Filler
- ▶ Adaptability : 5 Grams to 1 Kg
- ▶ Packing Speed : 35 to 40 pouches per minute
- ▶ Sealing Type : Vertical Centre Sealing
- ▶ Packing Material : Heat Sealable Lamintes
- ▶ Motor : 0.5 HP, 200 v, Single Phase AC

\*Due to the continuous R & D, design & specifications are subject to change.

## ▶ BAG FILLING MACHINE

### SPECIFICATIONS :

- ▶ System : Bag Filling Machine
- ▶ Capacity : 25kg to 50kg
- ▶ Output : 3-4 bags per minute
- ▶ Dimension : L-1899 mm x W-1200 mm x H-2700 mm approx
- ▶ Filling Accuracy : Up to 2E, +/-02%
- ▶ Filling Mechanism : Electro-Pneumatic gate, coarse and fine gate filling system apply
- ▶ Filling Syatem : Load Cell based, weight fill in hopper and drop
- ▶ Filling Mode : Coarse, and Fine filling and then drop automatic in bag, after that bag clamp opening
- ▶ Power Supply : Bagging Machine-230V AC, 50 Hz., Conveyor-440 V, 3-phase (2HP).
- ▶ Air Supply : 5-6 Bar.

\*Due to the continuous R & D, design & specifications are subject to change.
